

Back to Bavaria this year?

enjoy great prospects

Once again the time for a great event has come: the IFAT/Entsorga 2010 in Munich opens its gates from 13. to 17. September. We would be pleased to welcome you on our stand!

There is a lot to discover! Experience our newest highlights gained in practice for use in practice or get information on all there is to know about flow measurement by visiting one of our seminars. Our latest developments today show you the future of measurement systems for water management.

Of course there is a place to digest new impressions: sit back and relax in our comfortable bar area or enjoy a small snack, using the opportunity for more interesting talks.

Looking forward to meeting you in Munich!

Marcus Fischer, General Manager Dieter Bitterle, General Manager
